

September 2016 - May 2017
Naomi Berrie Diabetes Center Conference Schedule
 Thursdays, 9-10 am
 Russ Berrie Building, 1st Floor Conference Room 2 (**unless noted)

Date	Speaker	Topic
September 15 Goland	Alan M. Jacobson, M.D. Chief Research Officer Winthrop-University Hospital	Sugar, Diabetes and the Brain: Too Sweet or Not Too Sweet? That is the question.
September 22 Goland	Michael R. Rickels, MD, MS University of Pennsylvania	Islet Transplantation for Type 1 Diabetes
September 29 Accili	Pouneh Fazeli, MD Massachusetts General Hospital, Boston	FGF21: Of Mice and Men
October 6 Accili/Remi	Matthias Von Herrath, MD Professor, Division of Developmental Immunology Director, Center for Type 1 Diabetes Research La Jolla Institute for Allergy and Immunology Vice President & Head, Diabetes R&D Center at Novo Nordisk Inc.	The Pathology of Human Type 1 Diabetes
October 13 Pi-Sunyer	Pierre Lefebvre, MD, PhD, FRCP, MAE Emeritus (active) Professor of Medicine, The University of Liege, Belgium	Glucagon: A bystander or a key actor in the pathogeny of diabetes mellitus ? Milestones and Lessons
October 20 Accili	Joanne Hsieh, PhD Associate Research Scientist, Dept. of Medicine Molecular Medicine Columbia University Medical Center	LXR Stabilization and Hepatoprotection in TTC39B Deficiency
October 27 Leibel	Alejandro Caicedo, Ph.D. Miller School of Medicine, University of Miami	Autonomic nervous system control of pancreatic islet function
November 3 Goland	Steve Willi, MD University of Pennsylvania	Premature Cardiovascular Disease in Pediatric Diabetes

November 10 Accili / Harry Kissileff	Valérie Compan, PhD CNRS/INSERM/University, Montpellier, Nîmes France	Comorbidity Factors of Diabetes: Anorexia, Overeating
November 17 Utpal Pajvani	Luca Valenti Associate Professor Metabolic Liver Diseases Università degli Studi Milano	Nonalcoholic Fatty Liver Disease: The Role of Genetics
November 24 Thanksgiving	NO LECTURE	
December 1 Goland	Nadia Islam, MD Deputy Director of the NYU Center for the Study of Asian American Health and Director of the NYU Prevention Research Center, NYU School of Medicine	Diabetes Disparities in the Asian American Community
December 8 Accili/ Xiaojuan Chen	Al Powers, MD Director, Division of Diabetes, Endocrinology and Metabolism, Vanderbilt University School of Medicine	Surprises and Unknowns in the Pancreas in Type 1 Diabetes
December 15 Leibel	Colleen M. Novak, PhD Department of Biology and Neuroscience Kent State University, Ohio	CNS Control of Muscle Thermogenesis
December 22 Holiday		
December 29 Holiday		
January 5 Goland	Jon Giles, MD, MPH Columbia University	Body Composition and Adipose Tissue in Rheumatoid Arthritis
January 12 Accili	Claudio Villanueva, PhD University of Utah	Lipid Metabolism
January 19 Leibel	Atul Chopra, MD, PhD Baylor College of Medicine	Fat-To-Liver Communication in the Control of Glucose Metabolism and Energy Balance
January 26 Goland	Eitan Akirav, PhD Assistant Professor and Lead Scientist Winthrop University Hospital and Stony Brook University	β -cell loss – From detection to replacement in type 1 diabetes

February 2 Leibel	Malcolm J. Low, MD, PhD Professor, Molecular & Integrative Physiology & Internal Medicine University of Michigan, Ann Arbor	Weight Regulation and Behavioral Neuroscience
February 9 Leibel	Richard Simerly, PhD Vanderbilt University School of Medicine	Leptin Effects on the Development Of Hypothalamic Circuitry
February 16 Goland/Bogun	Jeffrey A. Ascherman, M.D. Professor of Surgery at CUMC Site Chief, Division of Plastic Surgery Columbia University College of Physicians & Surgeons	The Effects of Diabetes Mellitus on Plastic Surgery Outcomes: An Analysis of 40,465 Patients
February 23 Leibel	Vamsi K. Mootha, MD Investigator, Howard Hughes Medical Institute & Professor, Department of Systems Biology Harvard Medical School Massachusetts General Hospital	Mitochondrial Biology
March 2 Accili/ Chen	Maureen Gannon, PhD Division of Diabetics, Endocrinology, and Metabolism Vanderbilt University	Strategies for expanding functional pancreatic beta cell mass.
March 9 Goland	Deborah J. Wexler, M.D, MSc Associate Professor of Medicine Harvard Medical School Associate Clinical Chief, MGH Diabetes Unit, and Co-Clinical Director, MGH Diabetes Center	Practice-Based and Population Health Interventions for Type 2 Diabetes
March 16 Accili	Shuibing Chen Assistant Professor Weill Cornell Medicine Department of Surgery	Stem Cell, Genome-Wide Association Studies and Drug Discovery
March 23 Leibel	Evan Rosen, MD, PhD Beth Israel Deaconess Medical Center, Harvard University.	Role of Interferon Regulatory Factor 4 (IRF4) in Adipose and Muscle Function
March 30 Goland	Irwin Redlener, M.D. Director, National Center for Disaster Preparedness Earth Institute Professor of Health Policy and Management Mailman School of Public Health Columbia University & Michael Redlener, M.D. Assistant Professor Medical Director for EMS and Disaster Preparedness Department of Emergency Medicine Mount Sinai St. Luke's and Mount Sinai West	Disaster Preparedness : Special Considerations for People with Chronic Health Conditions

April 6 Accili	Pere Santamaria, MD, PhD Professor, Department of Microbiology Immunology & Infectious Diseases	Peptide-MHC-Based Nanomedicines for the Treatment of Autoimmunity: Engineering, Mechanisms and Diseases
April 13 Goland	Magdalena Bogun, MD Assistant Professor of Medicine Naomi Berrie Diabetes Center	Update on Inpatient Diabetes
April 20 Leibel Lecture Starts 10:15AM	Heike Muenzberg-Gruening, Ph.D. Pennington Biomedical Research Center	Leptin Signaling and Central Circuits of Thermoregulation
April 27 Accili	Matt M. Longjohn, MD, MPH Healthy Living Department National Health Officer YMCA of the USA	Community Integrated Health and Diabetes Prevention
May 4 Leibel	Dokmanovic Lecture Clay F. Semenkovich, M.D. Irene E. and Michael M. Karl Professor Chief, Division of Endocrinology, Metabolism & Lipid Research Washington University in St. Louis	Lipid Signaling and Diabetes
May 11 Goland	Catherine Tuck Lecture Kevan Herold, MD Professor of Immunobiology and of Medicine (Endocrinology); Deputy Director, Yale Center for Clinical Investigation; Director, Yale Diabetes Center	Beta Cells are Important in Type 1 Diabetes
May 18 Leibel	May 18 Susie Swithers, PhD Professor Department of Psychological Sciences Purdue University email: swithers@purdue.edu	Artificial Sweeteners: Help Or Harm?
May 25 Accili	Timothy A. Ryan, Ph.D. Professor of Biochemistry Weill Cornell Medical College, Cornell University	The Cost of Thinking: Metabolic Support of Synapse Function
June 15 Accili	Michele Solimena, M.D., Ph.D. Professor of Molecular Diabetology Medical School, TU Dresden, Germany	Cell biology of pancreatic islets and diabetes
